

NOTE :

Due to different diameters and rakes required to have the boat and motor perform to its optimal ability it may be necessary to change the trim tab anode.

Mercury offers 3 different styles of anodes:

1) Standard trim tab anode

**Mercury 31640 Q 4; Sierra 18-6011,18-6011A; GLM 12670;
Camp 31640**

ANODE/TRIM TAB - ALUMINUM Fits most Mercury/Mariner outboards 35 hp. and above and all MerCruiser except Bravo. Check for adequate propeller clearance prior to operation.

Mercury 31640 T 6; Sierra 18-6244

ANODE/TRIM TAB - MAGNESIUM Fits most Mercury/Mariner outboards 35 hp. and above and all MerCruiser except Bravo. Check for adequate propeller clearance prior to operation.

2) Puck style anode

**Mercury 76214 Q 5; Sierra 18-6016,18-6016A; GLM 12710;
Camp 76214**

ANODIC PLATE - ALUMINUM Provides additional clearance for high rake propellers. fits Mercury/Mariner 35-300hp, Force 90 and 120hp 1995 and newer, MerCruiser Alpha I & Alpha One gen II and Bravo I, II, III, X, XR and XZ drives.

3) Off set anode

**Mercury 822777Q 1; Sierra 18-6014,18-6014A;
Camp 822777**

TRIM TAB ANODE - ALUMINUM for applications where extra clearance is required for high rake propellers. fits most Mercury/Mariner 35 hp and above, Force 90/120 (1995 and newer), and all Mercury/ MerCruiser engines.
